

Finding All Possibilities

1.

Max has these four cards. He makes a 3-digit number which is less than 400. What number could he have made? Find all possibilities. Show systematic working out.

2. Using the same cards, Max makes a 3-digit even number which is greater than 600. List all the possibilities that Max could have made.

 3. Finally, Max makes a 3-digit odd number which is greater than 200, but less than 700. What number could he have made? List all the possibilities.
