Medusa - a monstrous gorgon with living venomous snakes in place of her hair.

The Minotaur - had the head and tail of a bull and the body of a man.

## **Part 1**

Design your own mythical beast and carefully draw it. You can use the pictures of the previous slides as guidance and inspiration. Use the features of these creatures in yours and then expand. Also safe search to view other mythical beasts.

## **Part 2**

Annotate your beast as we did yesterday with words and phrases to show the following:

- physical appearance
- traits/personality
- actions

You will need to use these in your labels and annotations:
