

Year 6 Home Learning Pack

Monday 20th to Friday 24th April

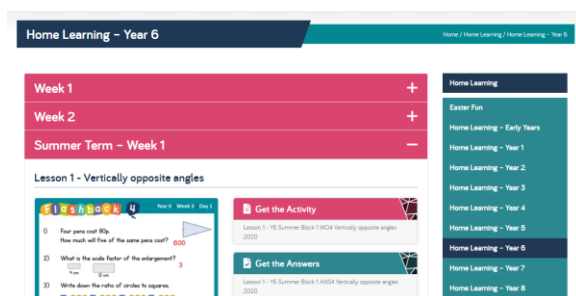

Hello to all our Year 6 children. We hope you and your families are keeping safe and well during Lock-down. To help you continue to learn, we have collated a range of resources for you to work on whilst you are at home. Do try to complete at least one Maths and English task each day if you can.

You can also keep your fitness levels up by tuning into 'PE with Joe' at 9.00am on YouTube for a half an hour workout each day.

White Rose Maths is also providing daily Maths lessons for you to access along with activities and answers.
